

Golden Triangle Marine Modellers

Our club was formed in 1969 with approximately 32 members of all ages. We have participated in the Kitchener-Waterloo Woodworking Show for the past 7 years and our members display a variety of (finished and unfinished) models. We have sail, scale, submarine, fast electric and gas power divisions.

The club displays and operates our models in the Kitchener City Hall reflecting pool on Wednesday evenings from approximately 6:30pm to dusk (weather permitting) from May to September. We meet at the Albert McCormick arena in Waterloo on the second Wednesday of every month from September to May. New members welcome.

This year on July 2nd & 3rd, 2010 the Golden Triangle Marine Modellers will be hosting the GLMBA Model Boat Expo at the Kitchener City Hall rotunda and reflecting pool, with more than 100 models on display and operating in the reflecting pool (admission is free).
