

## **Southwestern Ontario Model Engineers (SOME)**

We are an informal group of hobby machinists that began in the late 1990s with interests that include tool making, boat, rail, and plane modeling, small engines, and ornamental turning. Our members come from the area roughly bounded by Kitchener/Waterloo, Hamilton and Niagara, and west Toronto. We meet monthly on Sunday afternoons, rotating between members' homes. Typically, we use tabletop machines (lathes and mills) and work in a variety of metals and occasionally other materials. For further information, contact Ray Peacock at [ray@mainmast.ca](mailto:ray@mainmast.ca) (905-844-4435) or Brian Finlayson at [bfinlayson001@sympatico.ca](mailto:bfinlayson001@sympatico.ca) (519-884-9180).
